Will Nahmens

Senior Full-Stack Engineer · Team Lead

Founding engineer and development lead who ships commerce and SaaS products to production. Grew a coaching SaaS to 12,000+ users and $25k MRR with a team of 6, and lead an enterprise B2B commerce platform handling £20M in annual sales.

EXPERIENCE

Software Engineer · Vendure

Jan 2026 – Present

Vienna, Austria

- Lead delivery of a multi-tenant B2B commerce platform handling £20M in annual sales for a UK industrial distributor (agency client). Vendure, Next.js, Payload CMS, Kubernetes.
- Connected the storefront to the client's ERP and Boomi, so customers get their real stock, account pricing and credit status at checkout.
- Hardened production with PgBouncer connection pooling, Redis-aware health probes, search latency alerting and per-tenant e2e pipelines.
- Shipped to the open-source Vendure framework: removed a per-request stock query stampede, and added per-queue job concurrency, translatable assets and dashboard bulk actions.
- Fixed Vendure Cloud so deleted assets come down at origin and CDN, and environments show when they are behind their branch.
- Built Claude Code skills that triage the maintainers' PR queue.

Founding Engineer · Connected Performance

Jan 2022 – Present

Remote

- Grew a SaaS platform for coaches and athletes to 12,000+ users, 100+ white-label customers and $25k MRR, leading a team of 6.
- Shipped a white-label product from one codebase: a PWA under each customer's own domain, plus iOS and Android builds.
- Built payments that have processed $3M+: Stripe Connect and NMI per organisation, memberships, public booking and ACH return recovery.
- Added an in-product AI assistant with MCP tools and voice mode.
- Run CI/CD, e2e testing, monitoring and releases on React, Node, PostgreSQL and Expo.

Software Engineer · Elevantiq (formerly ALPIN11)

Dec 2024 – Feb 2026
